THREAT INTELLIGENCE NOTE - ATTACK NEUTRALIZED BY ARRESTS 2026 NEW YEAR CELEBRATIONS IVO LOS ANGELES FBI OPERATION VERDANT FORCE

CAVEAT: THIS INTELLIGENCE PRODUCT RELIES ON OPEN-SOURCE MEDIA OR GOVERNMENT RELEASED UNCLASSIFIED INFORMATION. RECOMMENDED ACTIONS ARE INCLUDED FOR CLIENTS FOR INFORMATION AND ACTIONS DEEMED APPROPRIATE.

THE THREAT LEVEL FOR THE HOLIDAY SEASON IS URGENT AND REQUIRES HIGH VIGILANCE INCREASED SURVEILLANCE BY CHURCH SECURITY FORCES. REMEMBER IN OBSCURA HAS WARNED ON THE TARGET SURVEILLANCE AND INTELLIGENCE COLLECTION AGAINST CHURCHES.

OPERATION MIDNIGHT SUN

SYNOPSIS

A large operation, the Turtle Island Liberation Front (TILF) planned complex attacks across the Los Angeles Metropolitan area targets remain unidentified. This was Midnight Sun, mission execution was 2026 New Year Eve, to force their goals against American sovereignty affect an audience beyond the immediate victims at five attack locations to force change and subordination to their goals and demands.

TILF is a long enduring communist, Islamist, anti-government, anti-capitalist, and anti-law-enforcement organization with extreme targeted violence is a tool. In Obscura has established TILF and dozens of enemy forces like it, are a proxy force that has come together as an axis front. Appropriately, as an axis, research has shown its lines of effort and control element as the Red Green Alliance.

RESTRICTED - PROPRIETARY INFORMATION. The information contained herein is for use by IN OBSCURA Clients and designated local, state, and federal, law enforcement and security agencies. TLP CLEAR – IN OBSCURA CAVEATS APPLY

Appropriately, this merges with the genocide and attacks on Christian targets in global subordination of and elimination of the Christians (and Jews) to establish the final solution of the Caliphate utopia, itself communist and Islamist. As In Obscura has shown in reporting and analysis the Church is a target.

With HIGH confidence, the target intelligence and surveillance of Churches, Christians and assassinations face the same attack scenario as this, albeit a different axis group at a time of their choosing. Do NOT forget attack history of arsons, bombings, assassination inside the United States. Targeting means eventual selection for attack

This report provides church security teams and clergy with a deeper look at the raw reality and danger posed by proven violent leftist anarchist groups. Recalling their nexus in the Red Green Alliance, HIGH confidence of foreign intelligence service as a control element. These groups proliferate U.S. and Europe and have merged other groups under the term mutual aid. We have seen the arsons, IED bombings of churches, assaults and assassinations and murders in the U.S. alone. TILF is described as a far-left, pro-Palestine, anti-government, anti-capitalist, and anti-law-enforcement organization.

While In Obscura does not have a training division, it calls on state, local and federal government to deploy regional and mobile training teams to start close trusting relationships with church security teams. Train them on threat detection and neutralization and related attack response capabilities to instinct. Christians do not have a global capability like the Jewish Federation of North America's Secure Communities Network. There is no proponent agency for Christians, and it shows.

COMMENT

IN OBSCURA analysis has established HIGH confidence most U.S. Churches have experience target surveillance, aka target intelligence collection. Most of these intelligence collection operations were and are **undetected**, even by church security teams.

IN OBSCURA CEO, Founder, as security director at his previous church reported to the local police two in-progress, separate collection missions (2022 and 2023). No follow-up from police. Nothing.

September 2025, In Obscura discovered and reported a Threat Intelligence Warning and analysis of multiple, complex target intelligence collection missions at churches in the Pittsburgh, PA Metro area, including the Air National Guard compound on the airport. The local police disseminated this information, testifying to the lack of urgency, collaboration of police-church security groups as the threat of church attacks is no longer a theory. January 2025, Christian Warrior Training Substack group disclosed two more target surveillance mission detected in-progress in Fairfax County.

OPERATION MIDNIGHT SUN

What follows is a brief report of this anarchist planned attack under the monicker they gave it. You will also notice they disclose other targets they are considering. Christians have been and are targets of these organizations. In Obscura has consistently warned of this threat. This is indeed a brief, unclassified look into their tactics, techniques, and procedures. **OPERATION MIDNIGHT SUN** is what it looks like, and the large gap between being proactive and waiting for it to suddenly appear.

SITUATION

The FBI as lead in a joint operation, neutralized the subject attack by five arrests in two locations, four in Lucerne Valley, CA and one in New Orleans, LA. These SUBJECT were charged with unidentified explosives related charges and conspiracy to commit them. THEY had five target locations in the Los Angeles area. A brief SOURCE media statement was that the SUBJECTS were in the testing phase of the attack operation.

Note distance to target from Lucerne Valley is over one hundred miles and in a central part of the Mojave Desert, a key intelligence collection reporting building the criminal case. This is for operational cover. Nothing is mentioned concerning the five target selection, intelligence collection on the targets.

The Turtle Island Liberation Front, the operation is a front for global jihad one of several inside the US. IN OBSCURA has repeatedly reported and warned of the direct nexus to the Red Green Alliance (US Communist, Islamist Terror groups) are in coalition bond (Mutual Aid) axis forces. The group used a Signal chat named "Order of the Black Lotus" to plan the attacks, which one member (reportedly Carroll) deemed a "radical" offshoot of the broader TILF.

TLP CLEAR – IN OBSCURA CAVEATS APPLY

TILF is described in official statements as a far-left, pro-Palestine, anti-government, and anti-capitalist organization, with "Turtle Island" referencing a Native American term for North America. A fifth person was arrested in Louisiana. Media speculation of a second target objective is not corroborated.

The following points are from the FBI Criminal Complaint leading to the arrests of now five team members. There is always a classified and sensitive portion of counterterrorism which is not exposed outside channels. This will never be in unclassified court documents released to the public.

It is with HIGH confidence that this case is much larger in scope and will expand. Although the investigation is cleared by arrests, the operational phase remains active and aggressive. As stated, many times these groups are an axis. The criminal complaint shows this by the intent and plans to attack ICE, and the offer to acquire unregistered firearms at the very least. It is also with MODERATE confidence that these groups are trained in a foreign country. This is what deployed after the reversal of Roe v Wade.

The Criminal Complaint (and Affidavits for Arrests, and Search and Seizure Warrants) establishes Probable Cause and evidence meeting statutory elements crimes violated associated with those committing them. You can also download here <https://www.documentcloud.org/documents/26378204-tilf-complaint-signed-redacted/>

Review of this document, In Obscura provides the consumer with the following bullet points. Security Teams should review these and consider them to enhance their detection capabilities.

Team Lead for the operation is identified as DEFENDANT/AUDREY ILLEENE CARROLL (CARROLL) who chaired the referenced team meeting. Emphasis is in **bold** font.

- November 2025, member of the Turtle Island Liberation Front (“TILF”), provided a Confidential Human Source (“CHS”)1 an eight-page, handwritten document titled “OPERATION MIDNIGHT SUN,” described a bombing plot.
- **Planting backpacks** with Improvised Explosive Devices, to be simultaneously detonated at five locations targeting two U.S. companies at midnight on New Year’s Eve 2025 these would be “**complex** pipe bombs.”

RESTRICTED - PROPRIETARY INFORMATION. The information contained herein is for use by IN OBSCURA Clients and designated local, state, and federal, law enforcement and security agencies. TLP CLEAR – IN OBSCURA CAVEATS APPLY

TLP CLEAR – IN OBSCURA CAVEATS APPLY

- Instructions on how to manufacture the bombs and included **guidance to avoid leaving evidence behind** that could be traced back to the co-conspirators.
- The Instagram account for TILF (the “TILF Instagram”) publicly posts content that advocates for violence against United States officials.
- Publicly available information from the TILF Instagram account, content on the account references that TILF calls for liberation of their lands and people, and decolonization and tribal sovereignty.
- TILF calls for the working class to rise up and fight back against capitalism. Moreover, TILF advocates that liberalism and peaceful protest will be the downfall of those who believe it is enough, and that **“direct action is the only way.”** For example, the caption of a post made on November 28, 2025, read “Revolution is the only way. Stop ‘peaceful protesting. **Rise up, fight back. We are not outnumbered, they are. Organize and be ready.”**
- A document provided Confidential Human Source five target locations identified, classified as “marks,” with **five additional blank slots** observable under the caption **“add more if enough comrades.”**
- Target locations identified as property and facilities operated by two separate companies that are **used or engaged in activities affecting interstate and foreign commerce.**
- The Handwritten attack plan. Teams of four On The Ground (OTG) operators plus one additional person to assist the teams.
- The written plan instructed that the bombs were to be detonated simultaneously on New Year’s Eve 2025 (i.e., December 31, 2025).
- The plan described **multiple operational security measures** the co-conspirators should take to conceal their identities, such as the use of a **burner phone that would be disposed of after the bombings by “submerging it in a concrete brick** after destroying the sim and then disposing of the brick in a body of water.”
- Three members of each OTG **plant “backpacks with IED at different points** along their assigned buildings.
- **The plan discussed pre-operational surveillance of targets,** identification of “debloc” or de-clothing locations, and not leaving “anything other than the ieds behind,” as they could not “risk any evidence tracing back to us.”
- Benefit of placing a small pebble in a shoe to alter natural gait to **obfuscate their identification.**

RESTRICTED - PROPRIETARY INFORMATION. The information contained herein is for use by IN OBSCURA Clients and designated local, state, and federal, law enforcement and security agencies. Outside dissemination is prohibited. This document is the proprietary and intellectual property of IN OBSCURA, LLC. RESTRICTED FROM DISCLOSURE//NOT FOR PUBLIC RELEASE OR NEWS MEDIA

TLP CLEAR – IN OBSCURA CAVEATS APPLY

TLP CLEAR – IN OBSCURA CAVEATS APPLY

- Instructions on how to purchase materials to construct a pipe bomb suggested using **cash only, purchasing in small quantities** to avoid suspicion, and splitting
- One member of each team would create graffiti of a **“red triangle in a message** of the team’s choosing on the sidewalk closest to the building while the other 3 are placing the devices.
- The designated OTG member was assigned to be **listening to police scanners** or in a vehicle in case “an emergency get away is needed.”
- Target date of the operation, New Year’s Eve, was identified as an opportune time because **“fireworks will be going off at this time so explosions will be less likely to be noticed** as immediately as any normal day.”
- The plan emphasized that “absolutely no mistakes can be made.”
- Team Clothing. Use of **“BlacBloc”** ovetop of a layer of “grey/casual bloc” on top of normal street clothes and noted to keep hair very tightly concealed and to wear gloves for the purpose of avoidance of leaving behind DNA.
- OPSEC. Team members leave their **personal devices at home** and to make sure the devices were set up to stream a long movie during the time of the attacks, so as to provide cover or “plausible deniability” by having it appear as though the member was actively using their devices.
- Co-Conspirators 1 and 2 --- each of whom had a TILF alias meeting occurred in or around downtown Los Angeles, **intended as an opportunity to produce content for a separate group**, they provided a copy of the handwritten document containing attack plans to Co-Conspirator
- Co-Conspirators were could not do stuff with them but could provide off-ground support such as monitoring police scanners.
- FBI agents conducting surveillance saw CARROLL depart the downtown Los Angeles location with Co-Conspirator 2 and followed them to a motel.
- **Asked if anyone would be interested in receiving firearms training from another group that had training approximately one month ago** and was willing to train them (referring to TILF/Order of the Black Lotus) on the use of firearms.
- Told the meeting attendees that she had a contact (whose identity is known to the FBI) who could...bombings, namely, **plans to commence targeting U.S. Immigration and Customs Enforcement (“ICE”) agents and vehicles with pipe bombs beginning in January or February 2026**, with CARROLL noting “that would take some of them out and scare the rest of them.”

- On or about December 5, 2025, CARROLL forwarded instructions to the CHS for the desert explosive testing that were originally posted **in the Black Lotus instructions**. These included geocoordinates for the planned camp site. Screenshot of a satellite map with markings depicting “where we will set up camp and where we will test” PAGE assured the group that DEFENDANT/PAGE **knew the desert extremely well**.
- “The other navigator, **please have a burner phone (no phones besides burners and all phones except navigators to be wrapped in foil or a faraday bag for the entirety of the trip) and install OsmAnd**. It is an open source map, so no corporate tracking.”
- PAGE’s residence, a copy of the hand-written attack plan (i.e., Operation Midnight Sun) detailing the bombing plot for New Years’ Eve 2025;
- GAFFIELD’s residence, **a Taser device that law enforcement records indicate had been stolen from the U.S. Federal Protective Service**; and LAI’s residence, a metal saw next to shards of PVC pipe, additional pieces of PVC pipe (along with receipts).

 **Andy Ngo**    ...

@MrAndyNgo

I can exclusively report that the fifth unnamed arrested suspect in the Turtle Island Liberation Front New Year's Eve mass bombing terror plot is Trantifa militant **Micah James Legnon** (center photo, in blue).

Legnon is on a federal hold in Lafayette, La. He is a trans activist and identifies as a female. His social media is filled with posts calling for the m—rder of people he labels as "fascists."

Authorities say the Turtle Island Liberation Front, a far-left communist "decolonization" terror group, planned to blow up ICE agents and locations with homemade bombs. Audrey Illeene Carroll, 30; Zachary Aaron Page (trans), 32; Tina Lai, 41; and Dante Gaffield, 24, are the other comrades arrested in Los Angeles after they were caught allegedly traveling to the desert to test their explosives.

Legnon is an ex-Marine and a former cop.

Andy Ngo @MrAndyNgo

One of the Los Angeles communist black bloc militants federally charged for being part of a far-left group that allegedly planned New Year's Eve bombings in southern California is **Audrey Illeene Carroll**. She uses the alias "Sky Miin."

In June, Carroll interacted with DSA activist Christopher E. Winston @OGBlackRedGuard and suggested that what she was planning against @ICEgov would be on the news. In February, she admitted going to direct actions in black bloc—Antifa's preferred uniform.

Carroll's mother revealed her daughter's "Sky Miin" alias when she put out a call for help in finding her. The mother didn't know the FBI had arrested her daughter at the time.

Four Southern California members of the Turtle Island Liberation Front were arrested last week while traveling to the desert east of Los Angeles to test improvised explosive devices, officials said. ngocomment.com

 **CATHOLIC UNIVERSITY STUDENT ARRESTED FOR ISIS CHRISTMAS MARKET BOMB PLOT**

Polish Internal Security Agency detained Mateusz W., a student at Catholic University of Lublin, for planning a "mass attack" at a Christmas market using explosives.

He's charged with preparing a terrorist attack "that could have resulted in the death or serious injury of many people."

The ISIS connection:

Mateusz wanted to join Islamic State and was "taking steps to establish contact with a terrorist organization, including obtaining its support in carrying out the attack." Officers seized data carriers and "items related to Islam" during the investigation.

Catholic university. ISIS sympathizer. Not the first time - radicalization happens everywhere, including religious schools.

The Islamic State recruitment machine doesn't care where you study, just whether you're willing.

What's next:

3-month preliminary detention while prosecutors build the case. Polish authorities gave minimal details - no specifics on which Christmas market, how far along the plot was, or whether Mateusz actually established ISIS contact or just tried.

Timing matters:

This comes one week after Bondi Beach (ISIS-inspired), days after the Russian school attack (online extremist radicalization).

The Christmas market target echoes 2016 Berlin truck attack that killed 12.

Europe's on edge - Poland just stopped one before it started.

TRAFFIC LIGHT PROTOCOL REQUIREMENTS FOR DISSEMINATION

Traffic Light Protocol (TLP) Definitions

Color	When should it be used?	How may it be shared?
 For the eyes and ears of individual recipients only, no further disclosure.	Sources may use TLP:RED when information cannot be effectively acted upon without significant risk for the privacy, reputation, or operations of the organizations involved.	Recipients may therefore not share TLP:RED information with anyone else. In the context of a meeting, for example, TLP:RED information is limited to those present at the meeting.
 Limited disclosure, recipients can only spread this on a need-to-know basis within their organization and its clients. Note that TLP:AMBER+STRICT restricts sharing to the organization only.	Sources may use TLP:AMBER when information requires support to be effectively acted upon, yet carries risk to privacy, reputation, or operations if shared outside of the organizations involved.	Recipients may share TLP:AMBER information with members of their own organization and its clients, but only on a need-to-know basis to protect their organization and its clients and prevent further harm. Note: if the source wants to restrict sharing to the organization only, they must specify TLP:AMBER+STRICT.
 Limited disclosure, recipients can spread this within their community.	Sources may use TLP:GREEN when information is useful to increase awareness within their wider community.	Recipients may share TLP:GREEN information with peers and partner organizations within their community, but not via publicly accessible channels. TLP:GREEN information may not be shared outside of the community. Note: when “community” is not defined, assume the cybersecurity/defense community.
 Recipients can spread this to the world, there is no limit on disclosure.	Sources may use TLP:CLEAR when information carries minimal or no foreseeable risk of misuse, in accordance with applicable rules and procedures for public release.	Subject to standard copyright rules, TLP:CLEAR information may be shared without restriction.
