EXECUTIVE SUMMARY

This short intelligence analysis is to inform and warn Christians about the escalating threat environment by Iran sleeper cell revenge attacks. This threat is escalating because of existing ground action which Obscura previously assessed as a nationwide Insurgency by the Red Green Alliance (Islamist and Communist) groups controlled by foreign intelligence services, including Iran. Another threat accelerant is the unclassified disclosure by ODNI that 18,000 (at least) Jihad operatives infiltrated the during the migrant surge and weakened border security during the period 2021-2025. There are other covert infiltrations. In Obscura has also emphasized the serious and factual widespread target surveillance of churches.

In Obscura Threat Level is now raised to IMMIDENT based on career experiences (classified) with these threat vectors, now six years focused on church security and threat and application of threat intelligence and then the founding of In Obscura. The client and consumer of my products are warned of what was coming - and has now arrived. These threats coincide with Ramadan, Passover, Purim and Easter, as well as the coming Blood Moon Purim. ⁱ Reading further you will find recommended immediate actions, select bibliography for added knowledge, and posts collected from social networking (HUMINT).

CONTEXT

THE RED FLAG OF REVENGE

Red Flag Rises Over Qom

The red flag is a historic and spiritual symbol in Iran. It is often used during times of mourning or to signal a call for justice. In this case, it was raised to show anger and grief after the attack.ⁱⁱ

This is the Axis of Resistanceⁱⁱⁱ and its proxy groups which includes the Red Green Alliance and US Insurgency Groups all of which are foreign intelligence services' covert, controlled operations against the U.S. and Europe. All of which today are driving the targeting to collapse the U.S. and Western governments. Biblical Prophecy rages. In that focus, GOI

Intelligence has threatened in open media several times if Iran is attacked, they would unleash very carefully designed and rehearsed attacks inside the United States.

As mentioned, GOI has moved to brutally attack, overrun, conquer, and subjugate Western governments and societies. Most of these nation states have placated and negotiated with GOI rather than defend and liberate their own people. Western Europe is being overrun and Christians obliterated from history as Islam conquers and becomes the one world government and religion (global caliphate). Some rather recent anomalies:

- During late 2024, in an official alert, Border Patrol warned of military-grade weapons being found on the Mexico side of the border near Ajo, Arizona (Tucson area). Weapons located, per the alert, include four rocket-propelled grenades and eight improvised explosive devices, also known as IEDs, as well as a large amount of ammunition. A scout site was also discovered and then dismantled by Mexican officials. IEDs found, per the alert, are consistent with those being used by transnational criminal organizations during recent drone attacks in northern Sonora.^{iv}
- During June 2025, ICE/HIS/FBI/JTTF aggressive and tenacious operations resulted in one unclassified news release, eleven Iranian Nationals Illegally present in the U.S., with admitted ties to Hezbollah, a known or suspected terrorist, and an alleged former sniper for the Iranian army. ICE also arrested a U.S. citizen who threatened to kill ICE law enforcement while harboring an illegal alien from Iran. The weekend arrests reflect the Department of Homeland Security's (DHS) commitment to keeping known and suspected terrorists out of American communities.^v
- The recent memo from the Department of Homeland Security (DHS) serves as a stark reminder of the ongoing threats faced by the United States. The memo warned law enforcement agencies about the potential for lone wolf terror attacks, a concern that has risen sharply after U.S. military strikes against Iran, including the high-profile killing of Ayatollah Ali Khamenei. This alert has heightened fears of retaliatory actions from Iranian-linked individuals and groups, prompting the FBI and DHS to increase vigilance in major cities like New York and Los Angeles.

- FBI Director Kash Patel pointed to the proactive measures being taken, stating, “Our JTFs throughout the country are working 24/7... to address and disrupt any potential threats to the homeland.” This continuous vigilance underscores the gravity of the current situation and reflects a commitment to preventing attacks before they can occur. As DHS Secretary Kristi Noem highlighted, there is tight coordination with intelligence partners as agencies mobilize comprehensive counterterrorism resources. Such a response is crucial given the historical context of U.S.-Iran relations, marked by cycles of aggression since the early 1980s.^{vi}

Following targeted US strikes on Iranian nuclear facilities and militias in 2024, Iran’s retaliatory posture has sharpened. Department of Homeland Security (DHS) bulletins now regularly refer to an “elevated threat environment,” flagging sleeper cells as a credible component of Tehran’s overseas retaliation strategy. The 2025 Homeland Threat Assessment names Iran as the primary state sponsor of terrorism and outlines its deliberate cultivation of foreign networks including potential assets within US borders.

Rising Numbers And New Patterns

US Customs and Border Protection data show that more than 1,750 Iranian nationals illegally entered the country between February 2021 and November 2024. This marks a twenty-fold increase compared to the preceding seven-year period. Additionally, over 7,000 Iranian nationals were declared inadmissible at official ports of entry. In response, Immigration and Customs Enforcement (ICE) has launched focused operations, arresting more than 130 individuals flagged as potential security risks since mid-2025. These trends have prompted a significant policy conversation around screening, vetting, and national readiness for nontraditional threats.

Sleeper Cell Mechanics And Activation

Sleeper cells are structured to operate beneath the surface of society. Agents often assimilate quietly into communities, living for months or years without visible activity, until receiving activation orders. The potential triggers may include geopolitical events, religious edicts, or specific losses to Iranian leadership.

The DHS terrorism bulletin issued in June 2025 warned of increased chances of violence if Tehran were to issue religious rulings calling for attacks. Since then federal

law enforcement has discovered Iranian based surveillance targeting transport centers and synagogues, student groups, and energy infrastructure. These strategies indicate a two-fold purpose, disruptive strategies and psychological pressure.

Embedded Threats In Plain Sight

Jonathan Gilliam, an ex-FBI counterterrorism agent, warns that the sleeper cells might be lurking in plain view since they will fit perfectly well in less-policed rural regions or suburban localities. This is particularly alarming in view of the global terror patterns, such as the attacks by Hamas in October 2023 and the local attacks in South Asia. These instances are representative of a trend: the change of emphasis on the hard targets located in large cities and soft ones in less fortified areas.^{vii}

KEY JUDGMENTS

HIGH Confidence in attacks by IRGC-QODS FORCE sleepers and illegals as well as their Iranian Popular Mobilization Front proxy groups and allies Russia and China. These elements will link up with the Red Green Alliance proxies already conducting insurgent operations and attacks. Targets are probably already selected and targets of opportunity.

THIS INCLUDES CHURCHES AND CHRISTIANS.

There will also be solo attacks committed by what is known as “lone wolf,” insurgents, and copycats. The Red Green Alliance has already proven their desire for blood inside the U.S. The current INOBSCURA intelligence analysis of the threat environment has escalated rapidly, on the heels of combat operations in Middle East. This is Hybrid warfare.^{viii}

COURSES OF ACTION

Most Likely

Target surveillance and intelligence collection against churches nationwide is largely completed, targets for attack reviewed and graded, selected for execution.

INOBSCURA has reported recent attacks on churches in St. Paul and Carlsbad were surprisingly, the insurgents gained repeated access to the target.

The complete lack of US Government involvement in countermeasures and liaison with churches for training and readiness is noted. Locally, I have spoken boldly about my own efforts and predictions of which are now upon us. There is no motivation to support

churches against what is coming. The insurgent stated motive concerning immigration enforcement operations, INOBSCURA finds this as a weak cover for the real agenda, revolution and overthrow of the U.S. Their deploying of terror tactics, firearms, vehicle (VBIED) ramming attacks, assassinations are one effort.

- As for widespread uprisings these are already escalating (supposed protests and demonstrations) which have and will afford large numbers of insurgents with close access to targets can be expected. The ability to transition into attack mode.^{ix}
- The attack at the night club in Austin, Texas has been all but confirmed as a “lone wolf” mission with the expected few details. In response the Governor of Texas emphasized the presence of sleepers in his border state^x
- A mass stabbing attack on the Capital Beltway in Fairfax County, purportedly a result of a road rage encounter. The attacker, driver, was shot dead by State Police, several injured and victim and her dog were killed. According, to State Police, Likely not a terrorist attack. Then on 2 March 2025, local media the attacker shot dead, identified by name has been confirmed as a US State Department Foreign Service Officer, no further details. However additional information from a recording of the attack response on a police radio scanner app revealed the attacker had a passenger in his vehicle. At the crash scene, this unidentified passenger exited, commanded a vehicle there and drove over a new victim.^{xi}

Least Likely

There is no intelligence to date, suggesting the threat will choose lesser means to their mission.

ANALYTIC CONCLUSION

Attacks in Europe and the U.S. are probable. This means travelers, tourists, missionaries. Domestic anarchists (insurgents) will be mobilized and execute target missions on those selected from intelligence and surveillance collection. In Obscura repeatedly warned of this activity which was at the time assessed as massive.

INOBSCURA assesses domestic insurgent and sleeper, intelligence illegals teams' covert communications affected by US and ISR operations in Iran have redundancy and have continued to prepare for target attacks.^{xixiii} This Red Green Alliance WILL escalate strategic, operational, and tactical activities across the U.S.

RECOMMENDED IMMEDIATE ACTIONS

In coordination with your insurance companies and coordination with local, state and or county police:

- Tasking private, armed security officers
- Hiring or requesting off-duty armed officers
- Monitoring cyber activity
- Increased scrutiny of live streamed activity and associated chat sessions
- Increased attention to mail and packages, especially those discovered property for which there is no explanation
- Suspicious occupied or unoccupied vehicles
- Roving external patrols on property, including checks for suspicious items (IED)
- Increasing external lighting
- Prohibiting backpacks
- Detection and management of unattended items
- Increased monitoring of people accessing the church building and services
- Increase security presence at external activity (outside mass gatherings)
- Train Ushers, congregations, security on suspicious and anomalous activity recognition and reporting
- Increase surveillance of parking lots, vehicle activity, to include roadways with access to property
- Submit grant proposals for security funding to the state and federal DHS Non-Profit Security Grant Program

merely war against a state or “regime,” a favorite word in the imperialist vocabulary. It is an attack on an entire people and region of the world. The Democratic Socialists of America (DSA) unequivocally condemns the attacks on Iran and violations of its sovereignty. From Cuba and Venezuela to Iraq and Iran, we categorically oppose regime change and foreign intervention. National sovereignty is a precondition for working-class liberation, not sanctions and bombs....

...The US-Israeli attacks are a continuation of the hybrid war that has been waged against Iran since its popular revolution in 1979. From the Clinton administration’s imposition of the Iran and Libya Sanctions Act in 1996 to the Trump administration’s withdrawal from the Iran nuclear deal in 2018 and waging of the Twelve-Day War, the United States has destroyed the Iranian economy, empowered a class of domestic sanctions profiteers, and caused the Iranian working class to suffer. Thus, in no way can the United States claim to be a friend of the Iranian people when it is a producer of the conditions that cause them to protest...!

POLICE-INVOLVED SHOOTING SHUTS DOWN I-495 SOUTHBOUND PRIOR TO ROUTE 236

FAIRFAX COUNTY, VA — A police-involved shooting has led to the complete shutdown of Interstate 495 southbound prior to Route 236, causing significant traffic disruptions Friday.

According to preliminary information, the incident began when a suspect crashed along I-495. Authorities say the suspect then allegedly stabbed three individuals during the unfolding situation.

A responding Virginia State Police trooper discharged their weapon, striking the suspect multiple times.

All three stabbing victims were transported to area hospitals. Their conditions have not yet been officially released.

The suspect was also transported after being shot. Their condition remains unknown.

As a result of the investigation, I-495 southbound prior to Route 236 remains completely shut down, and motorists are urged to avoid the area and seek alternate routes as delays are expected.

The investigation remains active and ongoing.

More updates will be provided as additional confirmed information becomes available.

Genesis 1:14 tells us that one of God's purposes for creating heavenly objects is to give us signs: "God said, 'Let there be lights in the expanse of the heavens to separate the day from the night. AND LET THEM BE FOR SIGNS and for seasons, and for days and years.'"

The Gospel of Luke 21:25-28 points to celestial signs before the end of days: "And there will be signs in sun and moon and stars, and on the earth distress of nations in perplexity because of the roaring of the sea and the waves, people fainting with fear and with foreboding of what is coming on the world. For the powers of the heavens will be shaken. And then they will see the Son of Man coming in a cloud with power and great glory. Now when these things begin to take place, straighten up and raise your heads because your redemption is drawing near."

THE PURIM BLOOD MOON: cbn.com/news/world/thi...

'THE FALL OF THE WICKED': Meanwhile, the Orthodox Jewish organization Chabad once wrote about the heavenly signs prophecy in Joel:

"There is much discussion in the commentaries about the meaning of this prophecy. Many explain it to be allegorical. However, the biblical commentator Rabbi David Kimchi (known as the RaDaK, 1160-1235) explains that when there is a total eclipse, the moon appears dark; however, when it is only partially covered, it appears red like blood, symbolizing the fall of the wicked."

Eugene, Ore. (Feb. 28) — Far-left extremists gathered for an emergency direct action against airstrikes on the Iranian regime. The extremists are the same people who have been attacking ICE & federal property.

A female driver driving slowly on the road they took over was assaulted in the face when she had her windows down. Shane Alexander Novak, of Pflugerville, Texas, is accused of jumping on her hood and damaging the windshield before he fell off and she drove off.

The woman was transported to hospital for treatment from the attack. Novak was also treated for minor injuries. The far-left extremists lied and said he had been "run over." They're calling for vengeance against the woman they terrorized. eugene-or.gov/m/newsflash/ho...

BREAKING: @FoxNews has obtained a photo of the Austin, TX mass shooter, armed & wearing a sweater that says “Property of Allah”. He has not been identified by authorities, but multiple federal law enforcement sources tell FOX he is a 53-year-old naturalized US citizen who was born in Senegal and was living in Pflugerville, TX. I am told he was also wearing an undershirt that had an Iranian flag on it.

pslvirginia EMERGENCY PROTEST TODAY - STOP THE WAR ON IRAN

Last night, Trump and Israel committed an unprovoked act of aggression against Iran. This is not about human rights or democracy, this is just a war for empire.

They always have money for wars, but never to feed the poor.

Trump and our politicians are more than willing to sacrifice working class people to fight and die on their behalf, while they cash in on the money they can make off of this illegal and unjustified war. That's why we are taking to the streets TODAY to demand an immediate end of military operations against Iran.

TAKE ACTION:
NO WAR WITH IRAN!

Organize and attend an action today alongside coalition partners in ANSWER!

We must maintain momentum to stop further illegal war in Iran by the US and Israel. Protests demonstrate our strength and pressure elected officials to stop any further escalation. Join or register your action at answercoalition.org/iran

Lobby Congressional leaders to vote "YES" on the War Powers resolution

A War Powers Resolution on Iran would make Congressional approval necessary prior to any further military actions by President Trump.

Organize and pass a resolution in your union!

Unionized workers can build international solidarity in the U.S. labor movement by passing resolutions in their union locals.

NEW: FBI Director Kash Patel just put the Bureau's Counterterrorism and Intelligence teams on FULL HIGH ALERT—mobilizing EVERY necessary security asset nationwide in response to the powerful U.S.-Israeli strikes on Iran.

Patel wrote on X: “FBI personnel are fully engaged on the situation overseas. Last night I instructed our Counterterrorism and intelligence teams to be on high alert and mobilize all assisting security assets needed. Our JTTFs throughout the country are working 24/7, as always, to address and disrupt any potential threats to the homeland.”

“While the military handles force protection overseas, the FBI remains at the forefront of deterring attacks here at home - and will continue to have our team work around the clock to protect Americans.”

“We ask everyone to please report anything that may seem suspicious to law enforcement - 1-800-CALL-FBI and tips . FBI . gov Thank you to all military service members, federal partners, and law enforcement who continue to put mission first.”

NCTC Director Joe Kent ✓

@NCTCKent

As the Iran conflict continues to unfold, @ODNIGov's National Counterterrorism Center is engaged and operating at full capacity, 24/7. We are tracking developments in real time, assessing any potential risks to the homeland, identifying emerging threats, and providing timely, actionable intelligence to the White House, law enforcement, and interagency partners to detect and prevent attacks against the American people.

Alongside those same partners, NCTC is acutely aware and relentlessly focused on flagging and eliminating the persistent threat to our homeland posed by thousands of individuals with terrorist ties who poured into our nation unchecked during four years of open borders under Biden.

Constant vigilance is a must. Stay aware of your surroundings, and if you see something suspicious, report it immediately to local law enforcement. Every one of us has a role to play in keeping this nation secure.
