### **PREDICATION**

The threats to Christianity, globally are growing ever more severe, unabated. Inside the United States, the evidence of violent, kinetic, direct action has long been an exacerbating normacy for churches, clergy and congregations. May Day each years is an accumulative outpouring of revolution, subversion and agnst against the government and the social compact of the nation. By their own statements and violent, insurgency operations, the Red Green Alliance has made it quite clear the U.S. and Western Democracies must be overthrown and replaced with socialism, islamism communism. Increasing violent direct action has targeted churches and synagogues in the U.S. As commanded by their foreign intelligence handlers-control elements, at the Roe v Wade reversal numnerous attacks on churches and Christian operated pregnancy counseling centers were deployed. These operations continue, well past the political assassination of Charlie Kirk, and worldwode Christian Genocide.

## TLP CLEAR – DISSEMINATION UNLIMITED

A body of In Obscura reporting alone has corroborated the rising antichristian islamist communist Red Green Alliance insurgency<sup>12</sup>. The nexus of these operations to Christianity cannot be detached, they are all one insurgent effort, and ave become increasingly violent and abundant. As cited in prior reporting to present day, churches are targets of insurgent intelligence collection no different than government officials. The collection of intelligence is on those deemed targets for attack, kidnap, ransom, assassination.

What follows is the latest information on the coming 2026 iteration nationwide of this May Day operation of the Red Green Alliance and its varied tentacles of insurgent, revolutionary direct action activities. Which are by their own outward mission statements, violent actions and published materials, manifestos. Churches must remain vigilant, train to react and defend their minstries, congregations and clergy.

On May Day weekend, tens of thousands of people across the US and the world took to the streets, celebrating the rebellious spirit of the anti-capitalist holiday which commemorates the anarchist Haymarket Martyrs, with strikes, demonstrations, and direct action. In the United States, tens of thousands demonstrated against the increasingly authoritarian grip of the second Trump administration, which has moved to attack labor unions, anti-war protesters, trans people, and kick-off a draconian crackdown on migrant workers. Thousands of protests were held outside of Tesla dealerships, ICE facilities, and in town squares.<sup>3</sup>

#### **Protesters are apparently planning to march into schools across the nation on May 1.**

Defending Education, an advocacy organization that combats leftist indoctrination in K-12 public schools, recently [obtained documents](#) outlining the talking points and marching orders being fed to radicals ahead of leftist May Day protests planned across the country.

Among the leftist outfits poised to train would-be protesters is the [Midwest Academy](#), a liberal activist-grooming center that has reportedly received over \$1.7 million in recent years from the National Education Association.

The Midwest Academy, joined by the the NYU Metro Center and organizers from Alliance to Reclaim Our Schools member groups, is coordinating a four-week training series titled "Four Weeks of Power" with the [purported aim](#) of building "a broader, stronger base of parents, educators and students taking action to defend and transform public schools."

Although organized by the NEA-backed outfit, sessions will be provided by the leftist organization [Free the Future](#), part of the [NEA-aligned](#) Alliance to Reclaim Our Schools network.

Free the Future will start off the sessions by providing "an introduction to community organizing in the context of the rising authoritarianism we're seeing in real time." Free the Future will conclude the sessions by helping fellow travelers "better understand power mapping and targets,

Free the Future is evidently keen to train up radicals with the NEA-backed group in time for mass protests on May 1. Free the Future has [partnered](#) with May Day Strong "to plan hundreds of actions in the streets" next month.

May Day Strong's tool kit [reveals](#) that radicals are reskinning their [No Kings protests](#) for May Day.

The tool kit recommends not only protesting outside lawmakers' offices and "one of the many corporate targets we need to take on," but that radicals stage "school walk-ins" and rally outside schools.

Hilton Hotels, Chevron, Citgo, and Enterprise Rent-A-Car are the corporations targeted by May Day Strong.

The organizers have furnished would-be protesters with a template [press release](#) that contains the following talking points:

- "Tax the rich so our families, not their fortunes, come first."
- "No ICE, NO War. No private army serving authoritarian power."
- "Expand democracy, not corporate rule. Defend free and fair elections."

NEA's official May Day 2026 ["Solidarity Toolkit,"](#) which is greatly similar to the May Day Strong tool kit right down to the advocacy for school walk-ins, states, "This May Day will be a day of rallies, marches, teach-ins, labor actions, and a refusal of business as usual — because when those at the top rig the system, collective action is how we set it right."

According to NEA's tool kit, "walk-ins" seem to involve a school invasion:

*During school walk-ins, parents, educators, and students, along with neighbors and community leaders, gather in front of their school 30-45 minutes before the school day begins. We rally and listen to a few speakers discuss what they want for the school, and **then we all walk into the school together.** Walk-ins can be used to celebrate your school, collaborate with school officials, or protest harmful school conditions and policies.*

Rhyen Staley, director of research at Defending Education, said in a statement obtained by Blaze News, "This is yet another example of how activists and teachers' unions view schools as a tool to advance their political agenda."

"It should be deeply concerning that one of the suggested tactics is to enter schools to protest against policies they don't like," continued Staley. "Putting children's education and safety at risk for political gain is unethical and immoral."

[Corey DeAngelis](#), a research fellow at the Heritage Foundation's Center for Education Policy, told Blaze News, "Congress should revoke the NEA's federal charter or at least bar them from engaging in political activity altogether."

DeAngelis noted further, "These radicals are providing free advertising for homeschooling, showing us exactly who they are, and parents need to pull their kids out of these institutions."

Becky Pringle, the Democrat NEA president who [reportedly](#) made over \$500,000 while fighting to keep schools closed [at kids' expense](#) between September 2020 and August 2021, [made clear](#) in her keynote address at last year's National Education Association convention that her union is committed to undermining the Trump administration.

"We must use our power to take action that leads, action that liberates, action that lasts," Pringle [said](#) in her speech.

At the convention, the NEA adopted a resolution declaring its support for mass movements against the government, including No Kings protests and anti-ICE rallies.

### May Day 2026

May 1 will be a coordinated day of action where we are demanding:

- **Tax the rich** so our families, not their fortunes, come first.
- **ICE Out.** No private army serving authoritarian power.
- **Expand democracy, not corporate power.** Defend free and fair elections not a rigged disaster.

Thousands of organizations across the country are calling for a day of “No School, No Work, No Shopping” to disrupt the violent billionaire takeover of our country and to put working families first. Because when the billionaires break every rule, it’s going to take more than a rally to stop them.

We are excited for you to join us in making this day a reality, and hosting an action where your neighbors can gather to make our voices heard.

### May Day Tactics

The organizers state that they are “fed up and demand an end to this billionaire takeover” and that demonstrators should prioritize the “core message: Workers Over Billionaires: We have the Power.”

Listed demonstration tactics include a rally that is “designed to highlight the harms of the crisis we face,” a protest outside congressional district offices or corporate targets, and a “Walk-in” at a local school where participants will rally in front of the building before entering to either “celebrate” and “collaborate with school officials” or “protest harmful school conditions and policies.”

### May Day Tactics

On May Day we will host thousands of actions across the country to show that we are **fed up and demand an end to this billionaire takeover**. Not all demonstrations will look the same, but they should all prioritize visibility and the core message: Workers Over Billionaires: We Have the Power.

- **Rally.** Gather your community to rally together on May 1st. Create a platform, invite speakers, and build a program designed to highlight the harms of the crisis we face—and what we'll do to fight back. Rallies are a great way to involve impacted people, compelling speakers, and essential voices from allied communities. We're building a big tent.
- **Protest.** This could look like a gathering at congressional district office, or a banner drop or a picket outside one of the many corporate targets we need to take on. Visibility is the key component—so make your signs, get your banners, and plan your chants!
- **Walk-In.** During school walk-ins, parents, educators, and students, along with neighbors and community leaders, gather in front of their school 30-45 minutes before the school day begins. We rally and listen to a few speakers discuss what they want for the school, and then we all walk into the school together. Walk-ins can be used to celebrate your school, collaborate with school officials, or protest harmful school conditions and policies.

### Hosting A Corporate Action

The toolkit also promotes “hosting a corporate action” which the organizers state gives them a “chance to stand up to the billionaires who are directly causing” them harm and “profiting from it.” Actions include wide awake, or all night noise, campaigns, boycotts, and protests.

Listed “corporate targets” for the action include Hilton Hotels, Enterprise Rental Cars and , Chevron & Citgo – which are stated to have played a “critical role in supporting Israel’s bombardment of Gaza and ongoing displacement of Palestinians.”

## Corporate Targets

### Hilton

Hilton Hotels has chosen to be complicit in the Trump regime's invasions of our cities. After ICE agents spend their days terrorizing our communities and ripping families apart, Hilton is providing the agents with a warm bed and a quiet respite. When one of their franchised hotels in Minnesota bravely refused to shelter ICE agents, the Hilton corporation caved to pressure from the far right and dropped the hotel as a franchisee. Hilton needs to stand with the communities in which it operates and stop enabling the fascists.

### Chevron & Citgo

In November 2025, Billionaire Trump donor Paul Singer bought the previously Venezuelan owned company, Citgo, in a forced auction the country says is illegal. He will reap billions more in profit if we let this criminal occupation continue.

Meanwhile, Chevron is the only US oil company currently operating in Venezuela, also well positioned to expand their operations and squeeze more profit from the country with Rubio's imperial oversight.

Chevron has a long history of harming people and the planet. Because of the company's critical role in supporting Israel's bombardment in Gaza and ongoing displacement of Palestinians, Chevron is already the target of a boycott campaign led by Palestinian rights organizations. Learn more [here](#).

You can click these links to find a [Citgo](#) or [Chevron](#) station near you. [Here's a map of Chevron stations](#) (made by our friends at the Boycott Chevron campaign) that are owned directly by the company, not franchises (this is important because we want to target the Corporations directly; most franchisees are small business owners who are also exploited by the big oil companies and we want them on our side).

### Enterprise Rental Cars

Enterprise has rented more than a thousand cars to ICE agents in the Twin Cities, and more around the country.

We are demanding that Enterprise stop renting to the ICE agents terrorizing our communities.
