NYPD Officer issues urgent 'sleeper cell' warning as ISIS-inspired teen bombers could face life sentence, By CHRIS MELORE, US ASSISTANT SCIENCE EDITOR, UK Daily Mail, Published: 22:58 EDT, 12 April 2026 | Updated: 03:05 EDT, 13 April 2026

ANALYST COMMENT

In Obscura Threat Level remains at IMMINENT for cause. In Obscura reporting and open-source media is replete with cautions concerning the infiltration and sustained presence Islamic sleepers (also known as Foreign Intelligence Illegals). In one official statement, the government estimated at least 18,000 terror operatives have infiltrated the U.S. mainland but does not include those entering illegally during the Biden years. The portions below illustrate the dire seriousness of an enemy which has culled Christians for decades, including Missionaries. There is NO excuse for NOT preparing and protecting your congregations and ensuring security units are trained and ready¹.

¹ Biden Allowed 18,000 Known Or Suspected Terrorists Into The U.S., Top Trump Official Reveals "That doesn't include the individuals that came here illegally through the open border, that number alarmingly remains unknown at this time." Portions of the article:

“...A veteran NYPD officer has warned that Americans in major cities should still be on high alert and prepared for 'sleeper cells' to strike, one month after New York City narrowly avoided a disastrous terror attack. On Tuesday, the two ISIS-inspired teens who threw homemade bombs during an anti-Islam protest were officially indicted on eight counts, including an attempt to use weapons of mass destruction and providing support to a terrorist organization....Retired Deputy Inspector Raymond Festino, a 30-year veteran of the New York City Police Department, worked on the front lines of countless emergencies and told the Daily Mail that copycats and other extremists were likely already in the US and plotting similar crimes.

Festino said: 'They're without question on high alert. I would say a good reason is, number one, that there are a lot of people who entered this country that the government is unaware of, and unaware of what their intention is.' 'You could have a bunch of sleeper cells that are sitting around, waiting to be activated. And now that there's a conflict going on in Iran, those sleeper cells could be activated.' Festino said that the public can take a few simple steps to make sure they stay safe, know what to do and are able to help police and others if another terror attack unfolds in front of them.

First, the law enforcement veteran said the main thing a sleeper cell will take advantage of is that people are too distracted, usually by their phones, and unaware of their surroundings. When a perpetrator of a crime picks out a victim, it's almost like a "prey" situation. You have a predator looking for prey,' he warned. 'If you're unaware of what's going on in your surroundings, you make yourself prey.'

Festino said it is particularly important to remain aware of where you are and where the exits are in case of emergency when visiting what the NYPD considers the likeliest targets to terrorists - crowded public spaces.

'In Manhattan, subway stations, Times Square, those are places where there are a lot of people in a little area. And people who want to try to do that want to maximize carnage. That's where they're gonna look for.' US security experts have also warned that Iranian sleeper cells and radicalized sympathizers are likely planning mass casualty attacks

Former George Washington University professor Lara Sheehi is speaking today at UC Davis. In my view, her work is deeply radical, far outside the academic mainstream, and at times indistinguishable from terror apologia.

PSYCHIC INTRUSIONS AND THE NECESSITY FOR PSYCHIC MILITANCY

w/ Lara Sheehi, PsyD.
Research Fellow at the University of South
Africa's Institute for Social and Health
Sciences, a licensed clinical psychologist,
and the host of the Psychic Militancy
podcast.

This talk will unpack and map out what constitutes psychic intrusions by violent systems such as cisheteropatriarchy, racial capitalism, and settler colonialism. More importantly, as we contour psychic intrusions, we will also attempt to distill the mechanics of psychic militancy to read how settler colonial logics and their imperialist and patriarchal counterparts work to lodge themselves inside of us, mobilizing identifications with the aggressor that have potential to disrupt notions of our own self as well as others, as Frantz Fanon has taught us. We will discuss how we might engage in refusals against psychic intrusions and their politically demobilizing work.

"We will commit ourselves to an anti-imperialist and working class movement, one where the working class will make it palpable that a general strike will defeat Trump's billionaire agenda."

That is the real project. ANSWER and the PSL use every flashpoint to build toward broader mass disruption in service of a far-left revolutionary agenda.

While Christians worldwide celebrated Easter, gunmen in Nigeria carried out a series of brutal attacks, targeting worshippers at St. Ignatius Catholic Church in Benue State and across several other states. At least 60 Christians were murdered, others have been kidnapped, and the final tally is still unclear.

CBN News spoke with missionary Judd Saul, founder of Equipping the Persecuted, who provided a sobering look at what he describes as a calculated campaign of genocide against Nigerian Christians.

ABSOLUTELY DISGUSTING!!!

Trans 'person' dressed as the devil puts on a perverted dance outside St. Patrick's Cathedral in NYC as families and children leave Easter Mass.

And Democrats will FIGHT for the right to be able to do this!

 **UPDATE:** St. Paul police make an arrest at Cities Church during Easter services this morning.

There have been weekly protests at the church since an anti-ICE mob invaded back in January leading to federal charges.

Statement from SPPD:

At 8:35 a.m. today, Saint Paul police officers were working contracted overtime at Cities Church when a group of protesters were outside of the church during Easter services.

The protesters were using a blow-horn and yelling loudly, disrupting the church services.

The protesters were given numerous announcements by officers to stop, or they would be cited and possibly arrested.

The majority of the group complied. One person, an adult female, did not comply and was arrested by officers for interference with religious observance, and Saint Paul City Ordinances 293.02 and 293.07.

No further information is available at this time.

Cops were called to the scene and tried to encourage this fella to leave on his own. Witnesses say the man yelled 'Jesus Christ' then left the church property. Otherwise, Happy Easter eve to all those who believe in the resurrection of Jesus Christ. In case you are wondering how the Bible ends, God wins." Following the blast at a Christian center in the Netherlands earlier today, the Iran-linked front group Ashab al-Yamin issued a statement warning people to avoid American and Zionist interests.

The group said that two Netherlands-based institutions – the Israel Products Center and Christians for Israel – promote Christian Zionism and support Israel economically through the sale of Israeli goods.

The message accuses these institutions of providing financial and moral backing to Israel. Ashab al-Yamin also invokes religious arguments, claiming historical Jewish responsibility for the crucifixion of Jesus in an effort to discourage Christian support for Zionism.

The publication is similar to a previous video in which Ashab al-Yamin threatened Bank of America in Paris. My initial assessment is that the release of the warning is likely tied to the bombing that occurred earlier today at a Christian institution in the Netherlands.

I will provide updates with further information and analysis as it becomes available.
