(TLP-C) BONDI BEACH ATTACK UPDATE – ALLEGED INTELLIGENCE FAILURES 25 MAY
2025

KNOW THE TARGET – WATCH THE TARGET – LOOK DEEPER -EXPECT THE UNEXPECTED
IN OBSCURA THEAT LEVEL – IMMINENT

CAVEAT: THIS INTELLIGENCE PRODUCT RELIES ON OPEN-SOURCE MEDIA OR GOVERNMENT RELEASED UNCLASSIFIED INFORMATION. RECOMMENDED ACTIONS ARE INCLUDED FOR CLIENTS FOR INFORMATION AND ACTIONS DEEMED APPROPRIATE.

EXECUTIVE SUMMARY

This is a typical post-attack scenario which seeks to determine why it was not just successfully deployed but indications and warning which were missed. Remember, the news media reporting is always incomplete and reported through the eyes of sources and their own perceptions, who usually disclose sensitive if not classified information.

In this aspect, the Bondi Beach attack, the media attempts to show the AUS Intelligence community supposedly failed to perform as designed and did not stop this attack by apparently not focusing on the SUBJECT'S foreign travel. This article alone does not and cannot disclose the true realm of the intelligence tradecraft and effort against the realm of the dark arts in which evil is engaged constantly. The news article and noted portion:

Major investigation: Intelligence failures let Akram family shooters enter terror hotspot prior to Bondi massacre while avoiding surveillance, Australia's top spy agency's assessment of the alleged Bondi attackers in 2019 demanded travel alerts be placed on them and their file revisited if they associated with extremists - but in a catastrophic failure, the men were able to move freely through known terror hotspots. Sharri Markson Sky News host, 4 min read, May 23, 2026 - 3:19PM

(NOTE: Bolding, underlined text is mine)

The alleged Bondi shooters travelled to Uzbekistan - a known pathway to terror hotspot Afghanistan - around late 2022 or early 2023. It's understood they tried to reach Afghanistan on foot from Uzbekistan, but are not believed to have been successful, according to intelligence provided to Australia by foreign partners including the United States and Israel. They also travelled to Saudi Arabia - which simply could have been to visit Mecca - in the years before the Bondi attack.

In a major failing, the travel to Uzbekistan and the terror hotspot of Mindanao in the Southern Philippines the month before the terror attack was recorded by Border Force and the AFP, but it's understood that it was not passed on to either ASIO or NSW Police. Had the intelligence agency known about the Akrams' travel, it could have raised questions, and the agency may have decided to take a second and closer look at the pair. The AFP and Border Force will need to be questioned during the Royal Commission about what action they took with information about the Akrams' travel.

ANALYST COMMENT

In Obscura will NOT confirm or deny the information in this report, but this can be used as an example of the deadly serious threats which are quite active against Christians, and the now historic attacks on churches, congregations, clergy and Christian related locations. Church Security Professions MUST be trained, adept, instinctive evaluated constantly and superbly prepared as Watchmen. Nothing is as it appears; in your roles you must become adept in "the target" and everything about before it is on your property. Proactive.

This report on the alleged security gaps surrounding the beach attack clarify why In Obscura was formed. What you read in this article should open the eyes of your hearts to the sheer evil reality of the superb skills of the enemy.

In Obscura noted foreign travel to Mindanao, PI, a known, deadly jihad location as stated in the reports. Now we learn more about the SUBJECTS' foreign travel. Much more is

involved in the classified realm. Yet none of this should be a surprise because the enemy has much less if any legal restrictions as western governments and their tradecraft and TTP is superbly daunting and not always detected.

Previous In Obscura raw (FLASH) and analysis that follow SHOULD provide the Clergy and their Security Professionals deep indications and warning which drive not just training and readiness, BUT the ability to build prayerfully the instinct and intuitiveness for the detection of suspicious activity AND anomalies which indicate imminent attacks, or the predicates of your church and congregations being actively targeted. In Obscura has also reported and prayerfully and passionately emphasized the KNOWN on-going target intelligence collection events of American Churches and Christian locations related activities. Traffic Light Protocol (TLP) Definitions

Color	When should it be used?	How may it be shared?
 <p>TLP:RED For the eyes and ears of individual recipients only, no further disclosure.</p>	<p>Sources may use TLP:RED when information cannot be effectively acted upon without significant risk for the privacy, reputation, or operations of the organizations involved.</p>	<p>Recipients may therefore not share TLP:RED information with anyone else. In the context of a meeting, for example, TLP:RED information is limited to those present at the meeting.</p>
 <p>TLP:AMBER Limited disclosure, recipients can only spread this on a need-to-know basis within their organization and its clients. Note that TLP:AMBER+STRICT restricts sharing to the organization only.</p>	<p>Sources may use TLP:AMBER when information requires support to be effectively acted upon, yet carries risk to privacy, reputation, or operations if shared outside of the organizations involved.</p>	<p>Recipients may share TLP:AMBER information with members of their own organization and its clients, but only on a need-to-know basis to protect their organization and its clients and prevent further harm. Note: if the source wants to restrict sharing to the organization only, they must specify TLP:AMBER+STRICT.</p>
 <p>TLP:GREEN Limited disclosure, recipients can spread this within their community.</p>	<p>Sources may use TLP:GREEN when information is useful to increase awareness within their wider community.</p>	<p>Recipients may share TLP:GREEN information with peers and partner organizations within their community, but not via publicly accessible channels. TLP:GREEN information may not be shared outside of the community. Note: when “community” is not defined, assume the cybersecurity/defense community.</p>
 <p>TLP: CLEAR Recipients can spread this to the world, there is no limit on disclosure.</p>	<p>Sources may use TLP:CLEAR when information carries minimal or no foreseeable risk of misuse, in accordance with applicable rules and procedures for public release.</p>	<p>Subject to standard copyright rules, TLP:CLEAR information may be shared without restriction.</p>
