TERRORIST ATTACKS AND THREATS TO HUMANITY

AFRICA (AFRICOM)

Location: Chiromawa Community, Garin Malam Local Government Area, Kano State, Nigeria

Time: Around midnight local time

Status: Under Investigation

Situation: Suspected gunmen kill three in Kano community

Summary: Three young men have reportedly been killed after gunmen attacked Chiromawa community in Garin Malam Local Government Area of Kano State. During the incident, one of the village chiefs, Alhaji Yusif Nadabo, was abducted and later found alive in a nearby village. The attack occurred around midnight when the gunmen reportedly stormed the community and opened fire, according to a resident, Mustapha Ibrahim Imam Chiromawa, who spoke to DAILY POST on Sunday morning.

Situation: Punjab AAP activist Gurpreet Singh Gopi shot dead near Ferozepur; cops suspect old dispute, elections as motive

Summary: Aam Aadmi Party (AAP) activist Gurpreet Singh Gopi was shot dead after unidentified armed men allegedly chased the bike he was travelling on and opened fire in Mamdot, a rural town around 24 km from Punjab's Ferozepur, on Saturday night, police said. Ferozepur senior superintendent of police (SSP) Bhupinder Singh Sidhu said Gopi and his associate Harpreet were travelling on a bike when the attackers, in a car, allegedly chased them and opened fire. Gopi and Harpreet sustained bullet injuries; doctors declared Gopi dead on arrival at the hospital where they were taken.

Situation: At least 3 injured as Russia continues attacks on Kyiv overnight

Summary: Russia continued its near-constant drone attacks on Ukraine's capital for a third consecutive night on Aug. 29-30, with authorities repeatedly issuing air-raid alerts in Kyiv as fires were reported in the city, injuring at least three people. The latest strikes come after Russia launched hundreds of drones at Ukraine over the course of the day, with the majority directed toward Kyiv, killing a two-year-old girl and injuring 12 people. In Kyiv's Obolon district, three people were being treated for injuries after a fire burned through several floors of an apartment block following a drone strike, emergency services reported.

TRAFFIC LIGHT PROTOCOL REQUIREMENTS FOR DISSEMINATION

Traffic Light Protocol (TLP) Definitions

Color	When should it be used?	How may it be shared?
 TLP:RED For the eyes and ears of individual recipients only, no further disclosure.	Sources may use TLP:RED when information cannot be effectively acted upon without significant risk for the privacy, reputation, or operations of the organizations involved.	Recipients may therefore not share TLP:RED information with anyone else. In the context of a meeting, for example, TLP:RED information is limited to those present at the meeting.
 TLP:AMBER Limited disclosure, recipients can only spread this on a need-to-know basis within their organization and its clients. Note that TLP:AMBER+STRICT restricts sharing to the organization only.	Sources may use TLP:AMBER when information requires support to be effectively acted upon, yet carries risk to privacy, reputation, or operations if shared outside of the organizations involved.	Recipients may share TLP:AMBER information with members of their own organization and its clients, but only on a need-to-know basis to protect their organization and its clients and prevent further harm. Note: if the source wants to restrict sharing to the organization only, they must specify TLP:AMBER+STRICT.
 TLP: GREEN Limited disclosure, recipients can spread this within their community.	Sources may use TLP:GREEN when information is useful to increase awareness within their wider community.	Recipients may share TLP:GREEN information with peers and partner organizations within their community, but not via publicly accessible channels. TLP:GREEN information may not be shared outside of the community. Note: when “community” is not defined, assume the cybersecurity/defense community.
 TLP: CLEAR Recipients can spread this to the world, there is no limit on disclosure.	Sources may use TLP:CLEAR when information carries minimal or no foreseeable risk of misuse, in accordance with applicable rules and procedures for public release.	Subject to standard copyright rules, TLP:CLEAR information may be shared without restriction.
